Thank you Marlies for your loyalty to the Project Uerê and to this lovely girl. She did fantastic and finished fundamental education with wonderful grades. In February she will start in the middle school (6th year) where she will have more teachers and more subjects. Often children struggle with this transition but we think that Talita will do well. She is smart, communicative and a very positive girl. Her family situation remains fragile. New photos to follow early 2017.

Suellen is doing very well and she successfully completed the 2nd year of secondary education. Early February 2017 she will start the final year of secondary school and another milestone will be reached. Completing nine years education is already clearly above average in the difficult environment of this violent slum, but completing twelve years is almost a miracle. We are very proud of Suellen and congratulate you Marlies for supporting such a successful and lovely girl. New photos to follow early 2017.
