Comentários / Comments

Matheus is doing very well and completed the 6th year of primary education with excellent grades. He now is in his well deserved Christmas holidays and will start the 7th year of primary education beginning of February 2022. He enjoys being in Projeto Uerê and he loves the music classes. He is a lucky boy to study in a private school, as the public schools were on and off during 2021. Children in those schools lost almost one and a half year of school. Thank you Marlies for supporting this wonderful boy.

As everywhere in the world, the pandemic is causing lots of interruptions, creating uncertainties and worries what the future will bring. Luckily the slum Complexo da Mare was chosen to vaccinate as many as possible adults and children. Also Uerê's staff is fully vaccinated. Many families lost their income, as they used to work in households or in the construction. Citizens do not want to have personnel in their homes for the time being out of fear that they bring the virus in their homes. Projeto Uerê continues the fundraising for food baskets that are being delivered to the most needy families.

On behalf of all children in Projeto Uerê we wish you and your family a Merry Christmas and a happy and healthy New Year.

Yvonne de Mello, Annie Hasemanns, Liliane França
