Matheus finished the 5th year with an excellent school report. In 2021 he shall start middle school and will have more subjects and more teachers.

He is well looked after by his parents and he is a polite little boy, who enjoys to be in the project Uerê and his school. He loves to play violin and is one of the youngest in the advanced group of the orchestra Camarata Uerê.

He did well, both during the period of online-schooling as well as learning in the classes.

Matheus is lucky to study in a private school. From spring 2020 onwards the public schools were closed and it remains questionable whether those children shall be able to return to classes in 2021. If 2021 is not improving in Brazil, the rate of school dropouts will rise.
