Suellen was going strong this year and she completed the primary education with a very good result. She now is in her well deserved long summer holidays and will resume the school in February where she will start the secondary education in a private school. Another child from the slum on the way to graduation. As the scholarship agreement usually expires with completion of the 9th year, we kindly ask you whether you are willing to also sponsor the three years of secondary education. We like to congratulate you Marlies for sponsoring Suellen. Thank you a lot for your loyal support.

Obrigado Thank you
