Mateus successfully completed the 3rd year of primary education. He had very good grades throughout the year. He is a very handsome and charming little boy, a bit shy but always with a warm smile. He is a single child and both parents have work. During the day he is being attended by his grandmother, who is a teacher. Mateus is the youngest member in the orchestra "Camerata do Uerê" and he masters his violin very well. Now he is in his well deserved summer holidays and will return to school in February to start the 4th year. Thank you very much Marlies for supporting this talented young boy.

The conditions in the slum were difficult with many armed disputes. From 2019 the military police will deploy snipers, who are trained to shoot from great distances and anyone in the slum holding a gun shall be targeted. The local people fear that that also innocent bystanders increasingly may become victims, particularly if the police will not be held accountable.

Lets all hope for better days and that the children one day can play outdoors without fear.
